Dear Mr. Marcelo:

re: SN: 10/050,360, Pat. Appl.: Diversity Communication
System and Method of Operation There

Enclosed, please, find two additional copies of our CRC reports that are referenced in this patent application. I am also enclosing legible copies of the requested corrections. Unfortunately, Mr. Bernstein received them from us too late to be submitted before the date USPTO stated in their letter. I hope this will satisfy all concerns.

Sincerely yours

J. Nigrin
